Mail Client Manual Settings

If you do not see an auto-configuration script for your client in the list above, you can manually configure your mail client using the settings below:

Secure SSL (Secure Sockets Layer)/TLS (Transport Layer Security) Settings (Recommended)	
Username:	correspondant@40and8indiana.com
Password:	*Use the email account's password.* ***SEE ATTACHED LIST...***
Incoming Server:	mail.40and8indiana.com IMAP (INTERNET MESSAGE ACCESS PROTOCOL) Port: 993 POP3 (POST OFFICE PROTOCOL 3) Port: 995
Outgoing Server:	mail.40and8indiana.com SMTP (Simple Mail Transfer Protocol) Port: 465
IMAP, POP3, and SMTP require authentication.	

Non-SSL Settings (NOT Recommended)	
Username:	correspondant@40and8indiana.com
Password:	*Use the email account's password.*
Incoming Server:	mail.40and8indiana.com IMAP (INTERNET MESSAGE ACCESS PROTOCOL) Port: 143 POP3 (POST OFFICE PROTOCOL 3) Port: 110
Outgoing Server:	mail.40and8indiana.com SMTP (Simple Mail Transfer Protocol) Port: 587
IMAP, POP3, and SMTP require authentication.	

Email Instructions

Send configuration information for "correspondant@40and8indiana.com" to the following email address:

> Email

Send

Notes:

- IMAP email access coordinates between the server and your mail application. Messages that have been read/deleted/replied to will show up as such, both on the server and in the mail application.
- POP3 does not coordinate with the server. Messages marked as read/deleted/replied to in the mail application will not show up as such on the server. This means that future mail downloads with POP3 will show all messages as unread.
- Outgoing mail is sent using SMTP.
- We recommend using POP3 over SSL/TLS or IMAP over SSL/TLS since they provide increased security for your interactions with the remote mail server.
