

Nurses Training

All,

As we navigate these troubling times in our Country there is no better time to honor the men and woman that each and every day have sacrificed their own health to care for the ones in need. I have had some e-mails sent to me that say we cannot sell pins because of the lock down or we cannot work on any fundraisers or work on projects. My answer to that is we can and should be. Why not give the pins to the Nurses in your area as a THANK YOU, good PR for the 40/8 a little write up and a photo to the Forty-Eighter. No reason a fund raiser could not be an e-mail or a letter asking our members to pledge at least \$5 to a great cause. There are many more ideas you all might have so let's not waste a chance to promote our program, our organization and thank so many people when we get a chance. Remember it's not the cost of a pin but the value it could bring to someone. We can make it happen - we are the Forty-Eight! Please, I ask each Voiture in your Grande to make a donation to the NT program. It's the least we can do for dedicated NURSES.
